

**Summer Leadership Conference
July 20-21, 2011
Lakeland Community College, Kirtland**

The Lakeland Experience—
NEOEA's Summer Leadership Conference

Our Keynote Speaker: Kim Langley

Kim is a professional public speaker, coach, and sought-after trainer with over 20 years of experience. She is familiar to NEOEA audiences from her many presentations at NEOEA conferences, but this will be her first appearance at Summer Leadership.

Kim's Personal Mission Statement is "To be of service to the world, delivering exceptional workshops that enable personal and professional growth, enhance authentic interpersonal and self-reflection skills, and make people want to get up for work on Monday morning!"

"The Science of Optimism" isn't just pop psychology, but a life-changing guide grounded in extensive clinical research, and it's just what we'll need by mid-July! Studies show that optimists make more successful sales people, contribute to personnel retention because people prefer optimistic supervisors, and are more likely not to talk themselves out of their own creative ideas! Kim will bring information and ideas from her presentations to business and nonprofits and apply them to the leaders and educators who make up the audience at Summer Leadership.
